Mission

To provide an independent and credible platform for corporate leaders to address issues related to sustainable development and promote leadership in environmental management, social responsibility, and economic performance.

With a vision to create a synergy for the corporate sector as a whole to move towards sustainability, TERI-BCSD (Business Council for Sustainable Development) India was set up by The Energy and Resources Institute (TERI) in 2001. It has now evolved into a strong industry body, with membership from diverse sectors, including public sector undertakings, multinationals, and private companies from across India. It is the Indian partner of the WBCSD (World Business Council for Sustainable Development), Geneva.

Leading from the front

President, TERI-BCSD India
Dr. R K Pachauri, Director General, TERI

TERI-BCSD India has a mission that is of enormous value to Indian society. The time has come when industry and business together look to what they can do for society and government rather than what society and government can do for them. In that spirit, TERI-BCSD India has been functioning as a platform for socially conscious corporations as they work towards the goal of sustainable development.

Chair, TERI-BCSD India

Mr Nitin Desai, Former Under Secretary General, United Nations

Business is in a key position to positively influence the future of sustainability agenda. The corporate sector should test their entire growth strategy against the emerging reality of climate change and the social compulsion to restrict GHG emissions. They may not face this challenge now. But they will in the lifetime of the plants and facilities and market presence they are establishing.

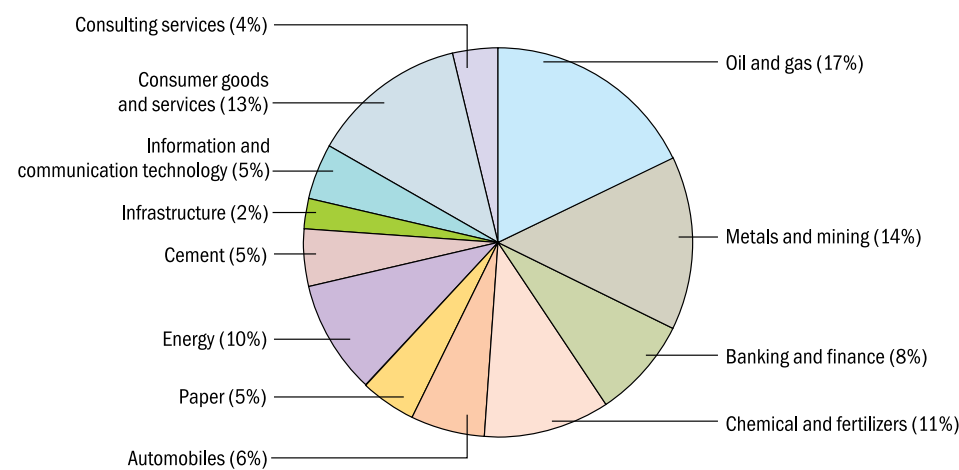

Co-chair, TERI-BCSD India

Dr JJ Irani, Director, Tata Sons & Chairman, Tata Quality Management Services

Various programmes which government has enunciated will fall flat unless industry takes it upon themselves to realize that it is business opportunity they have to do and there are some constraints.

Sectoral distribution of members

TERI-BCSD India member company representatives identify, conceptualize and implement projects in partnership with researchers at TERI and the structure of the business council reflects this partnership. TERI provides research and implementation support to the business council and acts as the permanent technical resource.

Thematic Areas

Based on the interest of the members, TERI-BCSD India has organized itself into the following five Thematic Advisory Groups.

Energy

Addressing issues related to access to energy; exploring future energy infrastructure, sources, technologies and energy frameworks.

Water

Understanding and measuring risks and opportunities for companies and developing tools and techniques for water resource management, water conservation etc.

Climate Change

Policy advocacy for Business role in NAPCC, Devising practical mechanisms, measurement tools, market based solutions etc. to help companies reduce their carbon footprint.

Healthcare

Assisting companies to address workplace health, safety and hazard management.

Sustainable Livelihoods

Exploring the role of the private sector and businesses to mobilize and strengthen its contribution to poverty-reduction strategies.

Key Projects

- Business role in the National Action Plan on Climate Change (NAPCC)
- Mainstreaming good social and environmental practices among SMEs in India
- Promoting sustainability reporting among Indian corporates
- Cement Sustainability Initiative
- Energy Efficiency in Buildings
- Industrial water management solutions
- Energy for Development - Business Models.

World CEO Forum

The annual World CEO Forum is a unique partnership event of TERI-BCSD India and the WBCSD. Started as a curtain-raiser event to DSDS (Delhi Sustainable Development Summit), the forum seeks the support of corporate leaders across the globe in transforming the MDGs (Millennium Development Goals) into a sustainable reality.

Talking Tomorrow Interactive Series

'Talking Tomorrow' is a series of lectures by eminent experts, from across the globe, in the fields of energy, water, climate change, healthcare and sustainable development. Speakers offer valuable insight into these fields and their impact on the global business environment.

Publications and periodicals

TERI-BCSD India publishes books and periodicals relevant to the corporate sector on environmental management, social responsibility and sustainable development. • **Cleaner is Cheaper:** Over 150 success stories, published in six volumes • **Citizens at Work:** CSR initiatives by the Indian Corporate sector • **Business Unusual:** Highlights of the World CEO Forum • **CEO Alert:** A bi-monthly newsletter for CEOs • **EnCORE:** A quarterly newsletter carrying updates on corporate environmental and social responsibility initiatives • **TERI-BCSD India Clips:** Weekly e-newsletter, contains clippings of sustainable development news relevant to the business sector.
